## HIGHWAY MAINTENANCE May 2025

### A393, Sandy Lane to Treluswell

As part of our planned programme of works overnight road closures will be in place from Monday 12 May to Thursday 15 May on the A393, to allow us to carry out routine maintenance activities. Work may include minor repairs, gully emptying, sign cleaning and the installation of road markings.

Works will be carried out at night between the hours of 7.00pm to 6.00am to minimise the disruption to local communities.

While the road closures are in place, all through traffic will need to follow the diversions at all times. Bus services will be given access through the closure sites, driving slowly to maintain a safe working environment for our teams.

| WHEN             | WHAT    | WHERE (CLOSURE LOCATION)                         |

## Why are we doing this work?

We need to ensure Cornwall's highways network is maintained to safe and serviceable standard. Our route maintenance could include minor works, patching work, cyclic activities such as gulley cleaning and sign repairs.

## Works area and diversion

Signs will be placed at major junctions prior to the road closure on the key routes to take non-through traffic away and keep traffic disruption to a minimum.

Diversion routes can sometimes be quite lengthy, but they have to be suitable for the type of traffic that would normally use the route. For safety, we need to put these measures in place.

Emergency access will be maintained at all times.

## Working safely

Our work sites can be dangerous places. Please do not enter the working areas. This is restricted to authorised personnel only.
